

# Soil Song Game

Listen to the Soil Song Game here:

<https://soundcloud.com/user-865218377/soil-song-game>

Example lyrics:

*Soil, soil, soil.  
Underneath our feet.  
Soil, soil, soil.  
Gives us everything we need.  
Gives us everything we need.*

**I've got a sweater...  
Sweater made of wool  
Wool from a sheep  
Sheep eats the grass  
Grass grows in the...**

**Chorus**

**I've got a mask  
Mask made of cotton  
Cotton from a plant  
Plant grows in the...**

**Chorus**

**I've got a notebook  
Notebook made of paper  
Paper made of pulp  
Pulp made of wood  
Wood from a tree  
Tree grows in the...**

**Chorus**

The idea of this game is that children suggest an everyday object and then discuss together and figure out how it comes from soil. Once they figure it out, they add a new verse to the song!

It's fun when there are lots of steps!

Note that you may not be able to figure out where all the objects come from, but it will be interesting to think about it!

Note that (non-bio) plastic is made from oil which comes from decomposed organic matter, which comes from soil.

Metal comes from minerals, which come from rocks which are found in the ground.

# Soil Song Game - Guitar Chords

**D G D**  
**Soil, soil, soil.**

**Cadd9 G D**  
**Underneath our feet.**

**D G D**  
**Soil, soil, soil.**

**Cadd9 G D**  
**Gives us everything we need.**

**Cadd9 G D**  
**Gives us everything we need.**

**Verse: hold D**  
**I've got a sweater...**  
**Sweater made of wool**  
**Wool from a sheep**  
**Sheep eats the grass**  
**Grass grows in the...**
